Putty Knife

Preparation Before Painting / Installation

- A trial fit is recommended to ensure proper positioning and fit.
- Check fit of parts before painting as we will not accept the return of modified or painted parts.
- Wash your vehicle to remove any debris and/or dirt from installation area.
- Dry the installation area with a clean towel.

Installation Steps

Lower the window & scuff the outside of the rubber window trim where the visor will attach. Clean the scuffed area with an alcohol pad.

Alcohol Pad

1

Remove the tape liner from the rear flange. Peel back 2" of tape liner from each end of top flange.

2

Slide the front flange behind the mirror cap, use a putty knife to create a gap if needed. Attach the top and rear flanges to the rubber window trim.

3

Remove tape liner by pulling on free ends. Apply pressure to top and rear tape flanges to secure.

4

4 Piece Set

The rear visor attaches with same preparation methods as the front visor. Attach visor to the vehicle's rubber window trim.
