Preparation Before Painting / Installation

- A trial fit is recommended to ensure proper positioning and fit.
- Check fit of parts before painting as we will not accept the return of modified or painted parts.
- Wash your vehicle to remove any debris and/or dirt from installation area.
- Dry the installation area with a clean towel.

Installation Steps

Alcohol Pad

Clean the visor mounting area on the door's painted surface with an alcohol pad.

1

Remove the tape liner from the front & rear flanges. Peel back 2" of tape liner from each end of top flange.

2

Lightly set the visor in place. Ensure vent window operates freely. Reposition visor if vent window movement is obstructed.

3

Remove tape liner by pulling on free ends. Apply pressure to the tape flanges to secure.

4

4 Piece Set

The rear visor attaches with same preparation methods as the front visor. Attach visor to the vehicle's painted surface.
