

Taillight Cover Installation Instructions

IMPORTANT:

Read all instructions before beginning installation on vehicle. **CHECK YOUR STATE/LOCAL LAWS FOR ANY LEGAL RESTRICTIONS.**

STEP 1:

Clean the entire taillight assembly with a soft cloth to remove any dust or debris which may affect the mounting of the taillight covers. A trial fit is recommended before installing to ensure proper fit.

STEP 2:

If painting, lightly rough taillight cover surface and paint per manufacturer's instructions.

STEP 3:

To install, remove adhesive backing and align cover with taillight assembly. Press taped surfaces against taillight assembly to ensure proper adhesion of the tape.

CLEANING:

Taillight Covers should be cleaned periodically with a mild liquid soap or plastic cleaner. Solvents or cleaners not intended for plastic may cause fading, fogging, or scratches to the surface and should not be used. A nonabrasive wax may be applied for increased protection.
