

Side Window Deflector

Important Safety Information

- CAUTION - Before driving, ensure that the wind deflector is properly secured to vehicle.
- Do not use automatic "brush-style" car washes.
- Do not use cleaning solvents of any kind.
- Periodically check all components for tightness.
- Wash only with mild soap & dry with a clean cloth.

CAUTION: READ BEFORE USING SURFACE PREP - Avoid contact with skin and wear appropriate gloves when handling this material. Use in well-ventilated area with sufficient ventilation to disperse vapors from promotor. Avoid prolonged breathing of vapors. If contact is made with material, flush area with large amounts of water. If irritation persists, get immediate medical attention. **USE SURFACE PREP ON RUBBER ONLY**

Tools Required

Masking Tape

Preparation Before Painting / Installation

- A trial fit is recommended to ensure proper positioning and fit.
- Check fit of parts before painting as we will not accept the return of modified or painted parts.
- Wash your vehicle to remove any debris and/or dirt from installation area.
- Dry the installation area with a clean towel.

Installation Steps

NOTE: Actual application may vary slightly from illustrations.

Clean painted door frame and mirror cap.

1

Hold visor in place and mark front and rear flange locations with masking tape.

2

Installation Steps

NOTE: Actual application may vary slightly from illustrations.

CAUTION: Read surface prep warning on page 1 before continuing.

Apply surface prep to shaded areas.

DO NOT APPLY TO PAINT.

(Perform task for both sides of vehicle)

3

Remove tape liner from front & rear flanges. Peel back 2" of tape liner from each end of top flange.

4

Attach visor to door. Front flange attaches to outside of mirror cap, top flange to painted surface, and rear flange to door post.

5

Remove tape liner.

6

Apply pressure to tape flanges to secure.

7
