

## Bed Protection Installation Instructions

1. Place bed protection on top of bed rail; adjust position for best appearance. See figure A.
2. Mark top of bed protection prior to drilling with 9/32" drill bit. See figure B for locations.
3. Place and adhere foam spacer to bottom side of bed protection at approximate location shown in figure A and B.
4. Secure with 1/4" fasteners. See figure C.
